

1. Send your assignments to your teacher by e-mail instead of printing them.
2. Walk or bike to school or work instead of driving.
3. Start a cell phone recycling campaign at your school.

TALON'S TOP TEN TO RESPECT THE ENVIRONMENT TIPS

4. Reuse school supplies from previous years or buy supplies from Greenhome.com.
5. Encourage school organizations to plant trees as an activity.
6. Supply rechargeable batteries for school electronics.
7. Unplug chargers for transportable electronics when they are not in use.
8. Have your teacher set the room temperature between 69 and 73 degrees Fahrenheit to save energy and improve the learning environment.
9. Avoid buying food and drinks from vending machines and snack bars because they are preserved with plastic packaging.
10. Keep your computer in "sleep Mode" if you step away and turn it off overnight.
