

TALON'S TOP TEN TIPS TO RESPECT THE ENRIVONMENT

1. Put a recycling area in each of your classrooms for water bottles, paper, and aluminum cans.
2. Turn the lights off in the classroom when you leave for another activity.
3. Use reusable lunchboxes, sandwich boxes, drink containers, and silverware for lunchtime.
4. Request or bring in dust-free chalk or nontoxic dry-erase markers.
5. Use a digital library or walk to a local library instead of driving.
6. Grow plants in the classroom or plant trees outside as a class project.
7. Buy school supplies that say "post-consumer product." They are made from recycled materials.

8. Use pens with replaceable ink cartridges because disposable pens do not decompose.
9. Start a campaign to recycle old tennis shoes.
10. 2.2 million metric tons of crude oil are used to make rubber bands so use paper clips to keep your papers together.
